Mannurpet, Chennai.

St Theresa's Mat.Hr.Sec.School

SSLC

(82 percentage) Jun 2016 – Mar 2017

Mannurpet, Chennai.

Relevant Coursework

- FullStack with java
- Frontend Development
- Fullstack Webdevelopment with Java (besant Technologies Anna nagar)
- Angular Framework
- Database Management

Projects

Business Portfolio for Airways Placement Services | *Angular framework*

December 2024

- Created a professional business portfolio for a startup company. The portfolio includes sections such as Home, Job Description, About Us (highlighting vision and mission), and Contact Us.
- It features a user-friendly contact form, detailed company information, and a navigation button redirecting to a Google Form for streamlined data collection.

Chat application using Homomorphic Encryption | *Angular Framework, Firebase , VS Studio*

October 2024

- Developed a real-time chat application using Angular and Firebase, integrating Firestore for message storage and Realtime Database for presence tracking. Implemented secure Firebase Authentication for user login, along with homomorphic encryption for enhanced data privacy. Designed a responsive UI with Tailwind CSS to ensure seamless user experience across devices.

J's Cart - E-commerce Website Development | *Angular Framework, Firebase , VS Studio*

November 2020

- Developed "J's Cart," an e-commerce website designed to provide a seamless online shopping experience. The project features a user-friendly interface, extensive product catalog, cart management, secure payment processing, and responsive design.
- My role included frontend development, UI design, and continuous optimization for performance and user engagement.

Technical Skills
